Kidney Trouble Attack Norway Men and Women, Old and Young.

Kidney ills seize young and old. Come quickly with little warning. Children suffer in their early years. Can't control the kidney secretions. Girls are languid, nervous, suffer pain. Women worry, can't do daily work. Men have lame and aching backs. The cure for man, woman or child is to cure the cause—the kidneys. Doan's Kidney Pills are for sick kidneys.

The following testimony proves their worth:

Mrs. C. L. Hersey, Peaks Island, Me., says: "I can recommend Doan's Kidney Pills highly to anyone suffering from disordered kidneys and lame back. This was my trouble for three years, and although I tried everything I heard of that I thought would do me good, I was unable to get relief. I heard Doan's Kidney Pills spoken of by my neighbors, and I finally began using them. The results both surprised and delighted me. I improved at once and in six weeks every symptom of my trouble had disappeared."

For sale by all dealers. Price 50 cts. Foster-Milburn Co., Buffalo, New York sole agents for the United States.

Remember the name—Doan's—and no other.

Under the Stars.

It was evening and the full moon shone from the dark sky. And the spilla realms above them flashed their radiance from on high. While descending on the landscape bathing realms of ice and snow, And the frost king's icy fingers sparked with sunset glow.

It was quiet in the village; little ones had gone to rest. While the elders of the household entertained some friendly guest. And discourse meanwhile it may be of the gossip of the day.

Then it was two friends were walking near the village, just outside. And of things they loved were talking often halting side by side, Gazing at the stars above them heedless of the winter's cold.

While their animated converse led to subjects new and old. They talked of the starry heavens while the moments fled away. While imagination took them out into the mill and mill ways.

As they talked of constellations, shining kings and queens, They were thinking more of pleasure they enjoyed that moonlight night.

What the words were spoken, God in his wisdom above will know. But in memory they linger—the undying words. If the words were truly spoken like as apples set in fields of polished silver writ as leaves of gold.

Not as cottages of stables that will perish in a new and old. But wrought out of gold and silver that no fire can burn away. They will stand the test of judgment settled at the great assize.

But why in the eternal life that never dies. Lines have deepened on their foreheads, thinning as they stand for the harvest like a grain in shocks, Time weaves the smiles of truth into their dull listening ears.

Voluntary prophetic learning uttered by the ancients. They behold the light of knowledge—science never known before. While the misty past has buried treasures of forgotten lore.

Now they wait upon the border, listening to the music of the stars. To convey them over the river into the forever more.

The young ladies of the Congregational church are making preparations for a fancy bazaar to be held Dec. 6th.

The schools about town closed last week. The high school gave an entertainment, Thursday night, followed by a social.

Rev. O. W. Peterson, pastor of the Congregational church, has declined not to accept the call to Bristol, Vt., and will remain here for another year.

Our Annual Festival.

Again we prepare for the Thank-
sgiving which has become a national
holiday, however it originated in New
England. Let the people pause in their
busy career and recount the blessings of
the past year.

It is true there are faces that will not
appear at our hearthstone that were
present a year ago. We have reason to
be thankful for things we got and for
things we didn't get. Without the co-
operation of the Almighty our labors
would be all in vain, our harvests en-
tirely lacking.

There are multitudes of things that
give us pleasure but we are apt to pass
along without a thought of thankful-
ness to the Great Giver.
Many of our misfortunes and those
who rehearse their misfortunes with
doleful tones begin life anew and seek
the brightest side in the highway of
life and forget its darkness.

An old man I once knew seemed to
have reached the highest degree of
thankfulness. He and his wife sat by
the fire one evening a short time before
Thanksgiving talking over the past and
planning for the coming event.

The old lady complained that she
never had things as she wished. The
old man said, "We always got along
some way." The old lady asked a
couple of times and said, "We've had
poverty enough." Well, said the old
man, "We ought to be thankful that
we have had enough of something."
Remember the poor.

Aid to Daintiness.

"That basin of water?" said a house-
wife, in answer to a question, as she
bustled herself about the kitchen. "That
is a little custom of my own; I never
start the preparation of a meal without
putting a little water in a small basin,
together with a piece of cloth—a wash
cloth, if one is handy. It saves me
trouble and no end of washing. You
see, the moment my hands become a bit
salty with this thing or that, I touch
them to the cloth in the basin, and they
are straightway as good as washed."

"If I handle dishes with fingers ever
so little soiled or sticky, it means that
there is an extra number of soiled dishes
you have to wash. Remember this the next time
you have a wash-dress made. Even a
white dress looks prettier with a big
white apron to match."

Kitchen Aprons.

Kitchen aprons of the same material
as your wash dresses always look neater
than those made of some other stuff.
They are a contributor to the ladies' Home
Journal. Remember this the next time
you have a wash-dress made. Even a
white dress looks prettier with a big
white apron to match."

Choosing a Poultry Farm.

To succeed with poultry one must
choose the right kind of surroundings;
the land and location are of the most
importance. There are farms and farms
but only now and then one suitable for
poultry keeping. The would-be poul-
tryman should be very careful in his
selection of a farm, for upon this se-
lection may depend his success or fail-
ure in the poultry business.

What are the essentials to be de-
sired in a farm that will be conducive to
the best results in poultry keeping?
First, a farm with land sloping to the
south or southeast, so that in winter
the hen house may receive the full
benefit of the sun's rays.

Second, a farm bordered or protect-
ed on the north and west by a forest or
windbreak, preferably of evergreen trees,
so that the cold winds may thus shut
off from the poultry plant.

Third, a farm with productive land,
in order that it may yield full returns
for fertilizer applied and labor expend-
ed.

Fourth, a farm with soil adapted to
fruit culture, so that fruit and poultry,
mutually allied and remunerative, may
be carried on hand-in-hand. An apple
orchard furnishes an ideal run for poul-
try; for, here shade, protection and
abundance of animal food can be found.

Fifth, a farm containing woodland or
slashes where, during the heat of the
summer, the flock may find shelter from
the sun as well as a variety of animal
food.

Sixth, a farm with a stream of clear,
cool water flowing through it where the
growing flock can have access to it at
all times, to quench their thirst and,
in the lowlands find innumerable forms
of animal and plant life so appetizing to
the fowl kind.

Seventh, a farm where corn and oats
will grow; for, amongst such crops are
always to be found crickets and grass-
hoppers galore, the bone and muscle-
making food for the growing chicks.

Eighth, a farm that is well drained,
with uplands and lowlands, with fertile
fields and verdant pastures, rich mead-
ows and thrifty woodlands. In short,
a farm that is teeming with plant and
animal life.

Such a farm, having as many of these
essentials as possible, is the one to be
chosen in order that the best results
may be obtained.

Why Our Flag Floats Over Oregon.
If any chapter of American history
bristles with romantic interest, it is the
conquest of the great Northwest by a
"paw" who thus achieved royalty, and
saved an empire to the flag. Marcus
Whitman won the bloodless victory in
all winter struggle with the elements,
crossing the "Stoney Mountains," and
gained a promise from the President
which finally gave us all the "Oregon
Country!"

Dr. Hallock has dug among the histo-
rical facts, and with the pencil of an
artist has outlined the story in graphic
form, which every one ought to read;
our young folks in particular should be-
come familiar with this book, packed
solid with the seeds of patriotism and
many thrilling incidents of our eventful
history.

Beautifully printed on a special hand-
made paper from Caslon old-style type
and profusely illustrated. Bound in
Imperial English cloth, gilt top, em-
bossed on back and sides in gold. Put
up in slide case. x plus 80 pp., (1x12),

Levitt H. Hallock, Smith & Sale, Port-
land, publishers.

VICTORIA Suction Carpet Sweeper

A new method by which you can sweep your carpet by air. Don't fail to see it; if you do not examine it now, the time may come when you wish you had.

The Only Carpet Sweeper on Earth, made on the suction principle and working by self-generated air draft, it is forcing the dirt out of the carpet and up into the pan without effort and without injury to the most delicate floor coverings.

Remember there is a difference between a Carpet Sweeper and a Carpet Rubber. By using the VICTORIA you will not injure your Carpet as it sweeps by suction. Four Black Fans in the cylinder create a vacuum that sucks the sand, dirt and moth out of the carpet and the soft bristles of the brush carry it into the dust pan. Can be adjusted for use on carpets, rugs, matting or floors. Hence there is no sprouting or wearing of your carpets like there is when using the so-called broom-action sweepers with their stiff brushes.

See it, learn what it is, examine it now. \$5.00. The Demonstrator is paid to show it to you.

There are many Incidental Benefits in having a Checking Account in THIS STRONG NATIONAL BANK

It enables you to keep track of your money matters in a systematic way. The entries in your bank book show how much money you have received, and the stubs of your check book and also the cancelled checks returned by the Bank show how much you have paid out and where the money went. In this way this Bank virtually keeps your books for you, and we may add, few individuals ever succeed in keeping accurate account of their finances in any other way.

The cancelled checks, returned by the Bank each month, are legal receipts for your payments. If you pay in cash you will often fail to get receipts but paying by check automatically gives you an indisputable receipt for every payment and in a form very easy to file for future reference. You also avoid asking for a receipt, which is sometimes, though wrongfully, looked upon as evidence of personal suspicion.

In view of all these advantages can you ignore the need of a bank account for yourself?

HOW TO CARE FOR THE EYES.

Suggestions For Relieving Strain and Allaying Inflammation.

When one is forced to work under a light that is placed too high for eye comfort and cannot be readily adjusted it is far better to use an opaque green shade over the eyes than to allow the sight to become permanently injured.

A good quality of shade can be purchased at your stationer's for the modest sum of a quarter, and the relief you will find in it will be more than worth the small expense.

Should the eyes become irritated near the eyelash use a wash of lukewarm sterilized water having diluted therein as much boric acid as the water will take up.

One can prepare a pint bottle of this and have it ready for use at any time, the only thing necessary being to place the bottle in a cup of warm water so as to make it lukewarm before using.

Should a white sediment form at the bottom of the bottle in crystal form the infusion is by no means spoiled, as this is only a very small extra quantity of the boric acid which has been absorbed by the water and is in no way harmful.

More than a certain quantity—say a heaped teaspoonful to a pint of water—will not be absorbed, so there is no fear of making the water too soft, as only a certain degree can be achieved in this direction.

Use of this when the lids become irritated, applying with a well cleaned eye-cup, will save you from many a painful and patience trying styes or an abscess of the eyelid, which is most discomfiting and which makes its appearance at the most inopportune time.

How to Make Dill Pickles.

Wash the cucumbers thoroughly and cut off all bruised or spotted parts. Put in an earthen crock, cover with water and add salt until an egg laid in the water will float to the top. Let stand twenty-four hours, then pour off brine. Put in glass jars or, if large pickles are used, in a stone crock. To one gallon crock use one-quarter of a pound of horseradish cut in pieces, one-quarter pound mustard seed, two large handfuls of dill. Heat white vinegar to the boiling point and pour it over the pickles. They must be covered well. Then cover the crock with a stone, cover, tie a thick cloth over it. Keep in a cool place. If small pickles are used and put in glass jars add some small red peppers and small white onions.
